

Dear FCC:

I am writing in support of Continental Airlines and their efforts to maintain wireless internet access with the airport President's Club lounges. This is a critical service for me. As a dues paying member of the lounges, this is a service that I have paid for. This is a reliable, seamless, and useful service that I have come to rely on.

Please DO NOT allow another service provider to dictate how and when I can use Continental's service. I will not be forced to use a monopolistic airport supplier - I will go back to my Verizon AirCard cellular service if I am forced to.

regards

Denis M. Wolowiecki
